

Installing CP2102 USB Driver V1

Open Device Manager by pressing Windows Key + X and selecting 'Device Manager'

If you see a yellow ! triangle labelled CP2102, then drivers require installing.

Note:- the Ports (COM & LPT) may need expanding, to see the device.

Step 1,

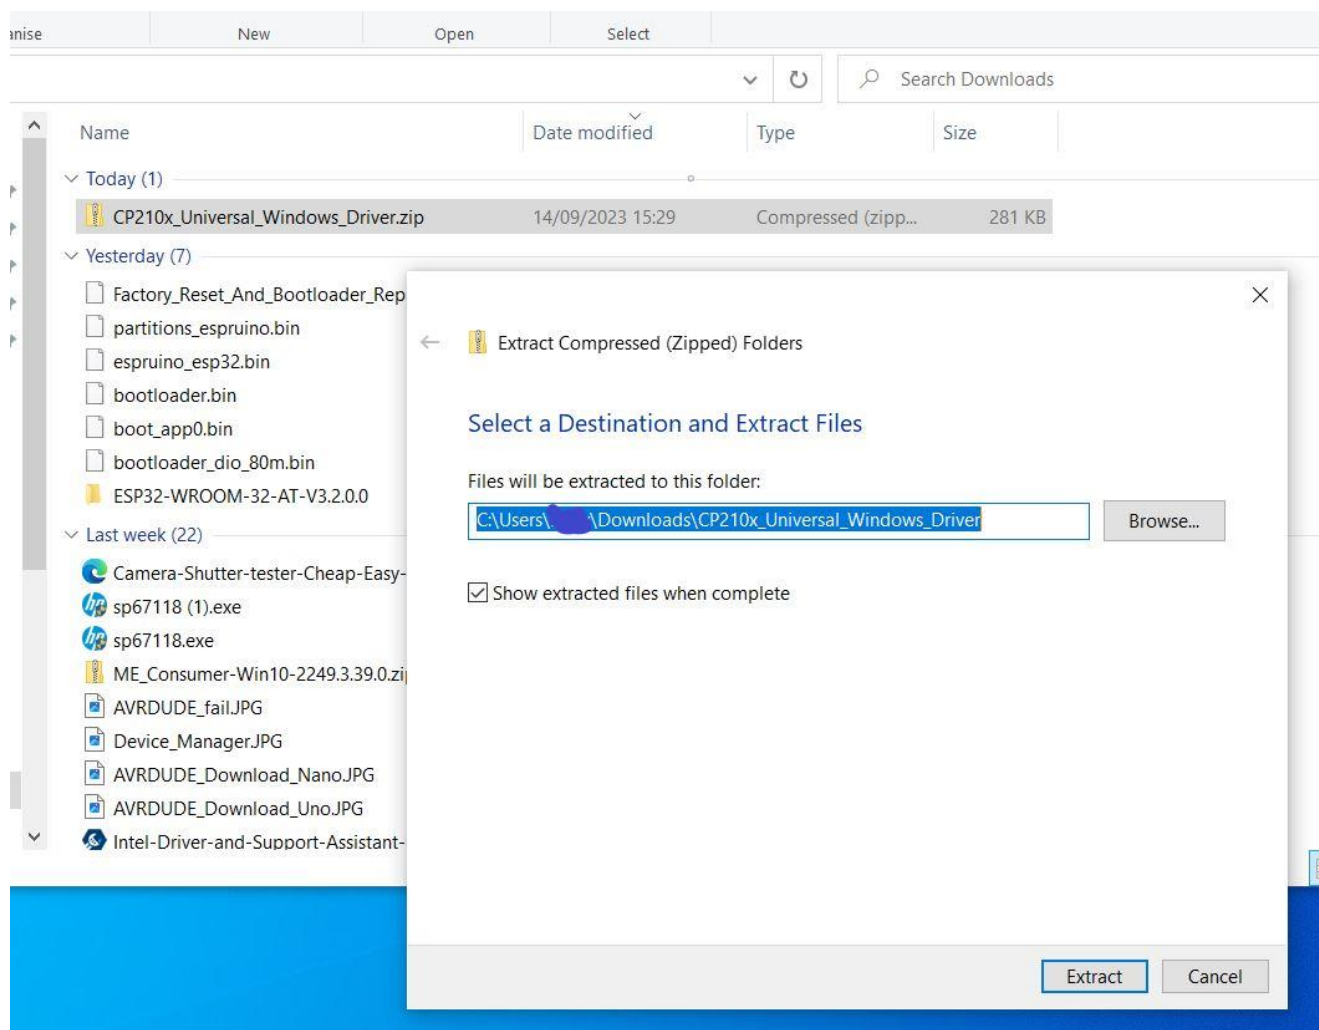

Download the drivers from the link below.

For Windows users, select the top one, CP210x Universal Windows Driver

[CP210x USB to UART Bridge VCP Drivers - Silicon Labs \(silabs.com\)](https://www.silabs.com/usb-to-uart-bridge-vcp-drivers)

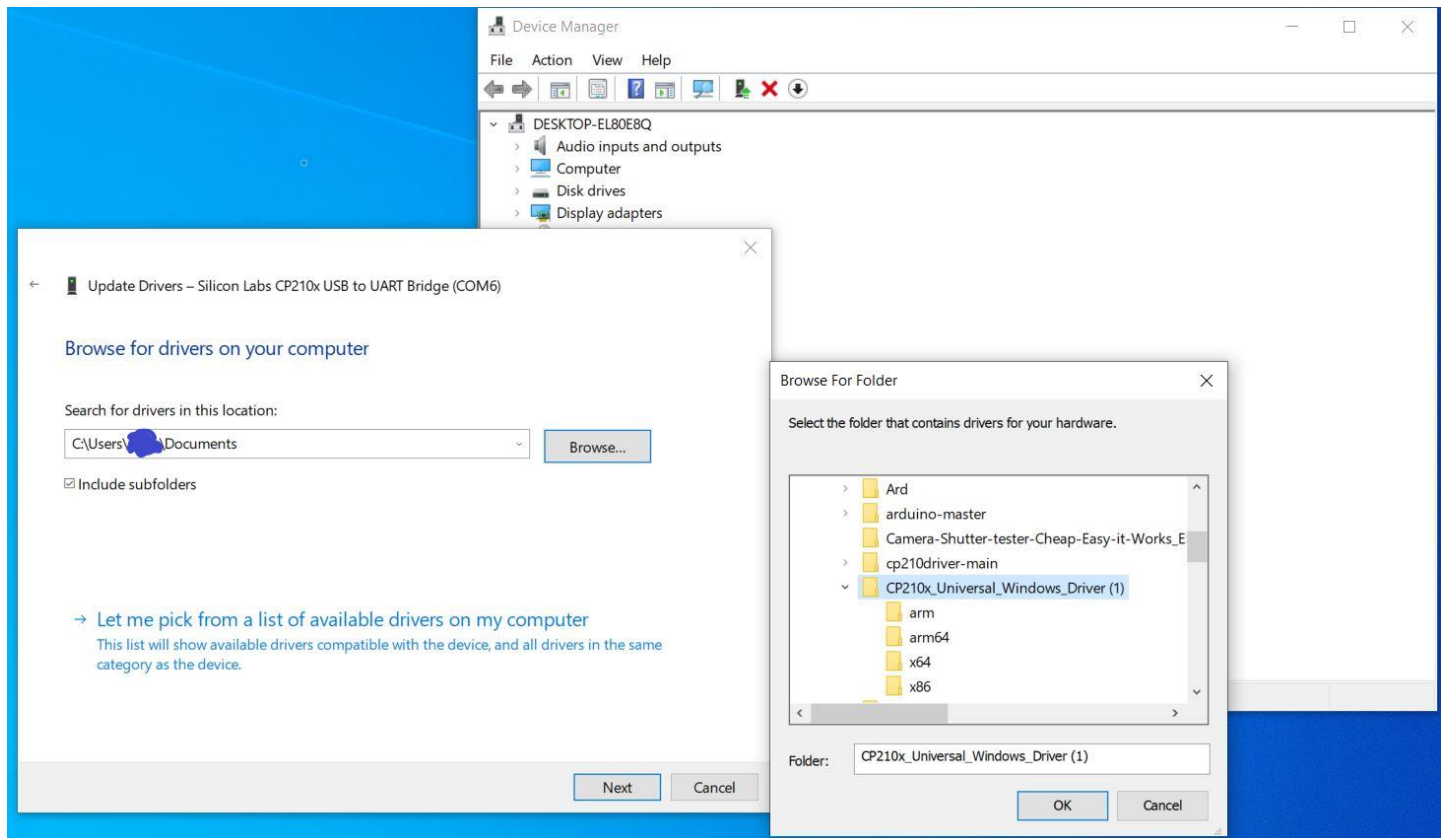

Step 2,

Navigate to the downloaded file (most likely in Downloads directory) Highlight it by clicking once, then right-click and select 'Extract All' and accept the default directory.

Step 3,

Go back to Device Manager and right-click on the **Yellow ! Triangle**
select 'Update Driver' and then 'Browse my computer for drivers'

Click 'Browse' and navigate to the Downloads folder, find and click on the folder that was previously downloaded & extracted.

Click 'OK' and then 'Next' in the previous box and the drivers should be installed.

A computer re-start will be required to complete installation.
